Effortlessly manage and establish remote connections of various types. Send files to your colleague's machine. Remove unused remote connections. Run 'TraceRoute', 'Wake On Lan', 'Ping', 'Port Scan', 'Event Viewer' or 'Inventory Report' operations. Unlock the remote computer. Create multiple team assignments. Remote Desktop Manager is a solid product backed by 24x7 technical assistance and a regular free upgrade program. Its successful concurrent usage boosts its reputation in the user community. History Remote Desktop Manager was created by Software Developers in 2005. From this year until a few days ago, the software was free and available for all. However, in this period, we received the message that the original developers behind Remote Desktop Manager are no longer able to support it and that new developers are now working on the product. This means that Remote Desktop Manager is no longer free but you can have the full version of the software for an annual, monthly or weekly license. If you are interested, you can also have our software for a free evaluation period. Important: EAC4ALL version (for instance, 3.4.0) of the Software runs slowly when checking and verifying the software.
